NY-TEX 125 is a tough and lightweight PU coated nylon fabric designed for use in providing weather & dust protection in light industrial applications. It is a rainproof textile (wicking can occur with standing water) but sewing will inevitably allow water seepage through the needle holes. Top surface has a slight sheen

Base Fabric	Nominal 100gsm dyed & woven nylon	228 decitex yarn warp and weft.
Coating	Polyurethane nom 25 - 35gsm	One side only
Fabric weight	125gsm +/- 10gsm	
Roll length	120m	
Roll Width	1.5m (all colours)	
Tear Strength	Warp: 45N (min)	Weft: 40N (min)
Tensile Strength	Warp: 900N (min)	Weft: 600N (min)
Coating Adhesion	35N (min)	
Cold Crack	- 30° C (max)	
Water Resistance	Minimum 1000mm	
Colour stability	Colour fast rating 5 - 6	UV Stable
Other	Machine washable 30° C	Steam iron (cotton setting)
